

PEX RING CRIMPERS

MASTERS® newly redesigned Pex Ring Crimpers are offset, compact and truly are “one-handed” crimpers. They are designed to fit into tight spaces and are ultra light for overhead use. Each pair is adjustable for wear and all come with a precision gauge to check your crimp.

Our new & improved design is much lighter to carry and requires far less force to crimp with than other popular models currently being sold in the market. The NEW Combination Crimper combines 1/2” & 3/4” in a unique single-handed offset design not typically offered in a combination crimper. Our 1” model is designed as a 2-stroke crimper; requiring 1 less crimp than the typical 3-stroke model.

Catalogue Number	Description	Quantity per Case	Approximate Case Shipping Weight
